

NONPROFIT

When the Mission Matters

Nonprofits face a bevy of challenges as they are held accountable to their donors, volunteers, oversight agencies, committees and the very ones they serve. While focusing on your mission, organizations cannot afford to overlook opportunities to improve on and overcome your financial challenges.

We have extensive experience with not-for-profit organizations across various focus areas:

- Health and welfare
- Private foundations
- Religious
- Higher education
- Social service
- Membership associations

An Experienced Perspective

Our Nonprofit team is made up of professionals who have experience and specialized training to serve the unique needs of nonprofit organizations.

Beyond the team's primary focus of auditing and tax compliance and planning in accordance with Government Auditing Standards and with the Office of Management and Budget Circular A-133, we also provide innovative ideas and practical solutions to assist our clients in developing a solid financial structure to help carry out their mission. In fact, our team has been involved in many special projects for our clients including:

- Acquisition due diligence
- Program/profitability analysis
- Internal control
- Projections and forecasts

Our Community Service

We have a long history and excellent reputation for serving many and varied nonprofit organizations throughout our community. Currently, through board membership and volunteerism, our partners, managers, and associates serve more than 70 organizations across the area.

This helps us gain a valuable perspective on the challenges that are inherent in the nonprofit environment. By sitting on the "other side of the table," we are better equipped to understand your position and help you achieve your goals.
